

Shelter Products, Inc. is one of the largest multi-family construction suppliers in the U.S. with over \$250 million in sales annually. SPI has a long established reputation as a recognized leader in construction sales.

Currently, we have an opening for an innovative, experienced Developer who enjoys working with people and technology to better systems and processes.

The Developer will work within our small IT department developing custom business applications with Microsoft tools.

SUCCESSFUL CANDIDATES:

- VB.NET, SQL Server and strong database experience required (MS Access a plus)
- ASP or PHP experience helpful
- Proven ability to work as a team and assimilate into different roles
- Computer Science, Information Systems/Business Degree or equivalent education and experience
- Proven ability to design intuitive user interfaces that minimize user training

WE OFFER:

- Competitive salary
- Excellent benefit package
- Outstanding team environment
- 401(k) plan with company stock option
- Results-driven winning team

REQUIRED TO APPLY: Cover letter, résumé and employment application (located at <http://www.shelter-products.com/careers.php>). In your cover letter, describe a major work challenge that you have encountered and how you resolved it.

Please send all application materials to: employment@shelter-products.com or fax to (503)233-2515.
