

## **EWP Designer**

Shelter Products, Inc. is one of the largest multi-family construction suppliers in the U.S. with over \$195 million in sales annually. We are currently looking for an **experienced Designer** to be a part of our Engineered Wood Products group.

The Designer will assist in managing EWP projects by being responsible for the drafting, design and estimating of construction projects. This will include project management coordination, AutoCAD drafting, structural engineering design and estimating EWP multi-family/commercial projects.

### **SUCCESSFUL CANDIDATES:**

- AutoCAD Drafting, preferably with version 2010 or newer
- Minimum of 5 years experience in plan reading and estimating
- Electronic Plan reading and estimating, preferably with multi-family or commercial projects
- Structural Frame construction experience
- Structural Load Path Development
- Metal-Plated Floor and Roof Truss design software, TJ Beam, Keybeam or other EWP manufacturer's software a plus
- A self starter with goal orientation and strong ability for accuracy and detail
- Construction/framing experience is a plus

### **WE OFFER:**

- Excellent career opportunity for long-term growth
- A results-driven winning team
- Excellent benefit package with the opportunity for stock ownership
- Financial strength of an established and successful company
